

“Quality & Detail in Every Home”

Jacobs Construction was founded by Rudy E. Jacobs more than 30 years ago. Rudy along with his wife, Fae, and their son, Richard, operate the family business with high standards of quality and integrity. "Quality & Detail in Every Home" are more than just words to this company. Each new home is truly built as if it were their own. Customer satisfaction is the result of the Jacobs' involvement and attention to detail. Excellent customer service - before, during, and after the purchase, have long been a standard of this family business. Each homeowner can contact Rudy and Richard whenever necessary because of their open communication policy. Jacobs Construction's ultimate goal is to develop a relationship with their customers and provide them with a distinctive, quality built home they can enjoy for many years.

"Lonny & I would like to thank you and all others that were involved in building our home and getting it ready for us. You all are a pleasure to work with. You are a well organized, professional, and caring business. Thank God we found you to build our home. You do excellent work and we love our dream home. Thank you for staying on top of things, handling changes, minor problems, and issues that have arisen. You meet people's needs quickly and accurately. We will highly recommend Jacobs Construction to anyone and will use you again when we get another opportunity to build later in our lives."

~Lonny & Laura Mills

"We want to thank you so much for doing such a wonderful job building our new home. It is truly a dream house for us and we really appreciate everything that you did to make it special. We truly enjoyed working with you all and really appreciate your attention to detail.

We hope to see you in the future and will enthusiastically recommend you to anyone we know interested in building a home."

~Stephanie & Scott Staatz
